REAVES UTILITIES AND ENERGY INFRASTRUCTURE FUND

Investment Objective

The Reaves Utilities and Energy Infrastructure Fund (the “Fund”) seeks total return from income and capital growth.

Fund Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold Institutional Class Shares of the Fund.

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

	Institutional Class Shares
Management Fees	0.75%
Other Expenses	<u>0.72%</u>
Total Annual Fund Operating Expenses	1.47%

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 Year	3 Years	5 Years	10 Years
\$150	\$465	\$803	\$1,757

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Fund Operating Expenses or in the Example, affect the Fund’s performance. During its most recent fiscal year, the Fund’s portfolio turnover rate was 66% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, the Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in securities of domestic and foreign public utilities and energy companies. This

investment policy may be changed by the Fund upon 60 days' prior written notice to shareholders. For purposes of this policy, (a) utilities companies, including those organized as master limited partnerships ("MLPs"), are companies involved to a significant extent in providing infrastructure-related products, services or equipment for: (i) the generation, transmission or distribution of electricity, gas or water; or (ii) telecommunications activities, including broadband and video services ("Utilities" or the "Utilities Industry"); and (b) energy companies, including those organized as MLPs, are companies involved to a significant extent in infrastructure-related activities, such as the discovery, development, production, generation, transmission, refinement, measurement or distribution of energy ("Energy" or the "Energy Industry"). The Fund considers a company to be involved to a significant extent in the Utilities Industry and/or the Energy Industry, as applicable, if at least 50% of its assets, gross income or profits are committed to or derived from the activities described above. The Fund has adopted a policy to concentrate its investments (invest at least 25% of its assets) in companies involved to a significant extent in the Utilities and/or Energy Industries. The Fund may invest in municipal utility companies, including rural electric cooperatives and similar organizations.

In selecting investments for the Fund, Reaves Asset Management (the "Adviser") utilizes an active trading approach and seeks to identify securities that offer the potential for positive total return during a three to five year period, based on, among other factors, a company's market capitalization, balance sheet strength, expected dividends, and current and expected earnings and cash flow. The Adviser may sell a holding if its prospects for growth and income decline or when the Adviser deems it to be an unattractive investment.

Principal Risks

As with all mutual funds, there is no guarantee that the Fund will achieve its investment objective. You could lose money by investing in the Fund. **A Fund share is not a bank deposit and it is not insured or guaranteed by the FDIC or any government agency.** The principal risk factors affecting shareholders' investments in the Fund are set forth below.

Since it purchases equity securities, the Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund's equity securities may fluctuate drastically from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. These factors contribute to price volatility, which is the principal risk of investing in the Fund.

To the extent that the Fund's investments are focused in issuers conducting business in the Utilities Industry and/or the Energy Industry, the Fund is subject to the risk that legislative or regulatory changes, adverse market conditions and/or increased competition will negatively affect these industries. Fluctuations in the value of securities of companies in the Utilities Industry and/or the Energy Industry depend to a large extent on the price and supply of energy fuels. Many utility companies historically have been subject to risks of increases in fuel, power and other operating costs, high interest costs on borrowings needed for capital improvement programs and costs associated with compliance with and changes in environmental and other governmental regulations.

Although the Fund is diversified, its investment strategy often results in a relatively focused portfolio of stocks of companies that the Adviser believes hold the most total return potential. As a result, poor performance or adverse economic events affecting one or more of these companies could have a greater impact on the Fund than it would on another mutual fund with a broader range of investments.

The small- and medium-sized companies the Fund invests in may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, investments in these small- and medium-sized companies may pose additional risks, including liquidity risk, because these companies tend to have limited product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, small- and mid-cap stocks may be more volatile than those of larger companies. These securities may be traded over-the-counter or listed on an exchange.

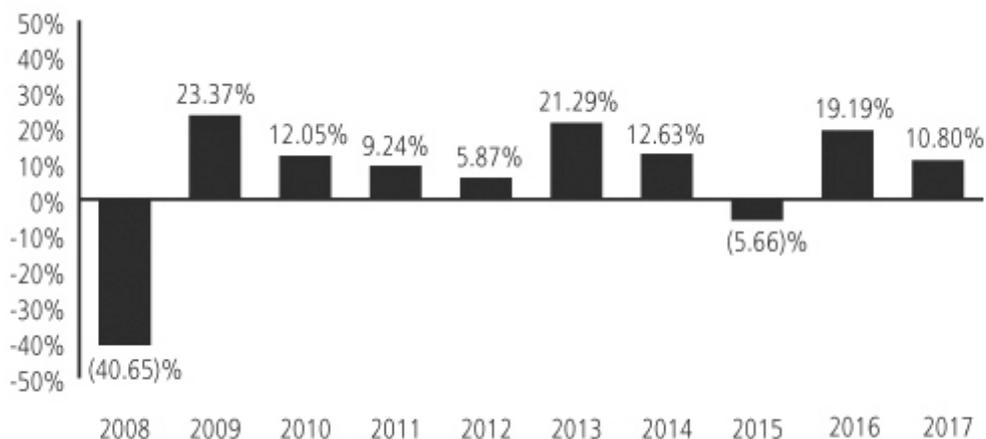

Investing in foreign companies poses additional risks since political and economic events unique to a country or region will affect those markets and their issuers. These events will not necessarily affect the U.S. economy or similar issuers located in the United States. Securities of foreign companies may not be registered with the U.S. Securities and Exchange Commission (the “SEC”) and foreign companies are generally not subject to the regulatory controls imposed on U.S. issuers and, as a consequence, there is generally less publically available information about foreign securities than is available about domestic securities. Income from foreign securities owned by the Fund may be reduced by a withholding tax at the source, which tax would reduce income received from the securities comprising the Fund’s portfolio. Foreign securities may also be more difficult to value than securities of U.S. issuers. In addition, investments in foreign companies are generally denominated in a foreign currency. As a result, changes in the value of those currencies compared to the U.S. dollar may affect (positively or negatively) the value of the Fund’s investments. These currency movements may occur separately from and in response to events that do not otherwise affect the value of the security in the issuer’s home country.

MLPs are limited partnerships in which the ownership units are publicly traded. MLPs often own several properties or businesses (or own interests) that are related to oil and gas industries or other natural resources, but they also may finance other projects. To the extent that an MLP’s interests are all in a particular industry, the MLP will be negatively impacted by economic events adversely impacting that industry. Generally, a MLP is operated under the supervision of one or more managing general partners. Limited partners are not involved in the day-to-day management of the partnership. Additional risks of investing in a MLP also include those involved in investing in a partnership as opposed to a corporation. For example, state law governing partnerships is often less restrictive than state law governing corporations. Accordingly, there may be fewer protections afforded to investors in a MLP than investors in a corporation. For example, investors in MLPs may have limited voting rights or be liable under certain circumstances for amounts greater than the amount of their investment. In addition, MLPs may be subject to state taxation in certain jurisdictions which will have the effect of reducing the amount of income paid by the MLP to its investors.

Because of its active trading strategy, the Fund’s portfolio turnover rate and transaction costs will generally be higher than those of funds with less active trading strategies, which may lower Fund performance and increase the likelihood of capital gains distributions.

Performance Information

The bar chart and the performance table below illustrate the risks and volatility of an investment in the Institutional Class Shares of the Fund by showing changes in the Fund’s Institutional Class Shares’ performance from year to year and by showing how the Fund’s Institutional Class Shares’ average annual total returns for 1, 5 and 10 years and since inception compare with those of a broad-based securities market benchmark and a comparative sector benchmark. Of course, the Fund’s past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future. Updated performance information is available by calling 1-866-342-7058.

BEST QUARTER	WORST QUARTER
16.47%	(23.14)%
(06/30/2009)	(09/30/2008)

The performance information shown above is based on a calendar year. The Fund's Institutional Class Shares' performance from 1/1/2018 to 9/30/2018 was 2.44%.

Average Annual Total Returns for Periods Ended December 31, 2017

This table compares the Fund's average annual total returns for the periods ended December 31, 2017 to those of an appropriate broad-based securities market benchmark and a sector benchmark.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts ("IRAs").

Institutional Class Shares	1 Year	5 Years	10 Years	Since Inception (12/22/04)
Fund Returns Before Taxes	10.80%	11.22%	4.91%	7.99%
Fund Returns After Taxes on Distributions	9.16%	8.92%	3.28%	6.28%
Fund Returns After Taxes on Distributions and Sale of Fund Shares	7.44%	8.41%	3.45%	6.22%
S&P 500 Index (reflects no deduction for fees, expenses or taxes)	21.83%	15.79%	8.50%	8.52%
S&P Global Infrastructure Index (reflects no deduction for fees, expenses or taxes)	19.07%	8.30%	2.52%	—*

* The S&P Global Infrastructure Index launched on February 22, 2007. Therefore, performance data cannot be provided for periods prior to February 22, 2007.

Investment Adviser

Reaves Asset Management

Portfolio Managers

Ronald J. Sorenson, Chairman and Chief Executive Officer, has co-managed the Fund since its inception in 2004.

Timothy O. Porter, Vice President and Energy Analyst, has co-managed the Fund since 2011.

Purchase and Sale of Fund Shares

To purchase Institutional Class Shares of the Fund for the first time, you must invest at least \$1,000. The Fund may accept investments of smaller amounts in its sole discretion. There is no minimum for subsequent investments.

If you own your shares directly, you may redeem your shares on any day that the New York Stock Exchange (the “NYSE”) is open for business (a “Business Day”) by contacting the Fund directly by mail at Reaves Utilities and Energy Infrastructure Fund, P.O. Box 219009, Kansas City, Missouri 64121-9009 (Express Mail Address: Reaves Utilities and Energy Infrastructure Fund, c/o DST Systems, Inc., 430 West 7th Street, Kansas City, Missouri 64105) or telephone at 1-866-342-7058.

If you own your shares through an account with a broker or other institution, contact that broker or institution to redeem your shares.

Tax Information

The Fund intends to make distributions that may be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or IRA, in which case your distribution will be taxed when withdrawn from the tax-deferred account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s web site for more information.

More Information about Risk

Investing in the Fund involves risk and there is no guarantee that the Fund will achieve its goal. The Adviser’s judgments about the markets, the economy, or companies may not anticipate actual market movements, economic conditions or company performance, and these judgments may affect the return on your investment. In fact, no matter how good of a job the Adviser does, you could lose money on your investment in the Fund, just as you could with other investments.

The value of your investment in the Fund is based on the value of the securities the Fund holds. These prices change daily due to economic and other events that affect particular companies and other issuers. These price movements, sometimes called volatility, may be greater or lesser depending on the types of securities the Fund owns and the markets in which they trade. The effect on the Fund of a change in the value of a single security will depend on how widely the Fund diversifies its holdings.

Equity Risk – Equity securities include publicly and privately issued equity securities, common and preferred stocks, warrants, rights to subscribe to common stock and convertible securities, interests in MLPs, as well as instruments that attempt to track the price movement of equity indices. Investments in equity securities and equity derivatives in general are subject to market risks that may cause their prices to fluctuate over time. The value of securities convertible into equity securities, such as warrants or convertible debt, is also affected by prevailing interest rates, the credit quality of the issuer and any call provision. Fluctuations in the value of equity securities in which a mutual fund invests will cause the fund’s net asset value (“NAV”) to fluctuate. An investment in a portfolio of equity securities may be more suitable for long-term investors who can bear the risk of these share price fluctuations.

Foreign Security Risk – Investments in securities of foreign companies or governments can be more volatile than investments in U.S. companies or governments. Diplomatic, political, or economic developments, including nationalization or appropriation, could affect investments in foreign companies. Foreign securities markets generally have less trading volume and less liquidity than U.S. markets. In addition, the value of securities denominated in foreign currencies, and of dividends from such securities, can change significantly when foreign currencies strengthen or weaken relative to the U.S. dollar. Financial statements of foreign issuers are governed by different accounting, auditing, and financial reporting standards than the financial statements of U.S. issuers and may be less transparent and uniform than in the United States. Thus, there may be less information publicly available about foreign issuers than about most U.S. issuers. Transaction costs are generally higher than those in the United States and expenses for custodial arrangements of foreign securities may be somewhat greater than typical expenses for custodial arrangements of similar U.S. securities. Some foreign governments levy withholding taxes against dividend and interest income. Although in some countries a portion of these taxes are recoverable, the non-recovered portion will reduce the income received from the securities comprising the portfolio.

More Information about Fund Investments

The investments and strategies described in this Prospectus are those that the Fund uses under normal conditions. During unusual economic or market conditions, or for temporary defensive or liquidity purposes, the Fund may invest up to 100% of its assets in money market instruments or other cash equivalents that would not ordinarily be consistent with its investment objective. If the Fund invests in this manner, it may not achieve its investment objective. The Fund will do so only if the Adviser believes that the risk of loss outweighs the opportunity to pursue its investment objective. The Fund’s investment objective may not be changed without shareholder approval.

This Prospectus describes the Fund’s principal investment strategies, and the Fund will normally invest in the types of investments described in this Prospectus. In addition to the securities and other investments and strategies described in this Prospectus, the Fund also may invest, to a lesser extent, in other securities, use other strategies and engage in other investment practices that are not part of its principal investment strategies. These investments and strategies, as well as those described in this Prospectus, are described in detail in the Fund’s Statement of Additional Information (“SAI”) (for information on how to obtain a copy of the SAI see

the back cover of this Prospectus). Of course, there is no guarantee that the Fund will achieve its investment goal.

Information about Portfolio Holdings

The Fund generally publishes a complete list of its portfolio holdings on a monthly basis, as of the end of the previous month. For example, the Fund's investments as of the end of January would ordinarily be published at the end of February. The Fund also publishes a list of its ten largest portfolio holdings, and the percentage of the Fund's assets that each of these holdings represents, on a monthly basis, ten (10) days after the end of the month. The portfolio holdings information described above can be found on the internet at <http://aicfundholdings.com>. The information will generally remain available until replaced by new portfolio holdings information as described above. The Adviser may exclude any portion of the Fund's portfolio holdings from such publication when deemed to be in the best interest of the Fund. Please consult the SAI for a full description of the policies and procedures that govern disclosure of the Fund's portfolio holdings.

Investment Adviser

Reaves Asset Management, founded in 1961, serves as the investment adviser to the Fund. The Adviser's principal place of business is located at 10 Exchange Place, 18th Floor, Jersey City, New Jersey 07302. As of September 30, 2018, the Adviser had approximately \$3.12 billion in assets under management.

The Adviser makes investment decisions for the Fund and continuously reviews, supervises and administers the Fund's investment program. The Board of Trustees (the "Board") of The Advisors' Inner Circle Fund II (the "Trust") supervises the Adviser and establishes policies that the Adviser must follow in its management activities.

For its services to the Fund, the Adviser is entitled to a fee, which is calculated daily and paid monthly, at an annual rate of 0.75% based on the average daily net assets of the Fund. The Adviser has voluntarily agreed to reduce its fees and reimburse expenses in order to keep total annual Fund operating expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses and extraordinary expenses) from exceeding 1.30% of the Fund's Institutional Class Shares' average daily net assets. The Adviser intends to continue this expense limitation until further notice, but may discontinue all or a portion of its fee reductions or expense reimbursements at any time. In addition, if at any point total annual Fund operating expenses (not including excluded expenses) are below the expense cap, the Adviser may receive from the Fund the difference between the total annual Fund operating expenses (not including excluded expenses) and the expense cap to recover all or a portion of its prior fee reductions or expense reimbursements made during the preceding three-year period during which the agreement (or any prior agreement) was in place. For the fiscal year ended July 31, 2018, the Fund paid 0.59% of its average daily net assets in advisory fees to the Adviser.

A discussion regarding the basis for the Board's approval of the Fund's investment advisory agreement will be available in the Fund's Semi-Annual Report to Shareholders dated January 31, 2019, which will cover the period from August 1, 2018 to January 31, 2019.

Portfolio Managers

The Fund is co-managed by a team of investment professionals who are jointly and primarily responsible for the day-to-day management of the Fund.

Mr. Ronald J. Sorenson has served as Chairman and Chief Executive Officer of the Adviser since September 2005 and as Chief Investment Officer of the Adviser since November 2002. Previously, he served as Executive Vice President of the Adviser from November 2002 to September 2005 and as Vice President of the Adviser from December 1991 to November 2002. He has co-managed the Fund since its inception in 2004. Mr. Sorenson has more than 35 years of investment experience.

Mr. Timothy O. Porter has served as Vice President, Energy Analyst and portfolio manager for the Adviser since July 2004. He has co-managed the Fund since 2011. Mr. Porter has more than 22 years of investment experience.

The SAI provides additional information about the portfolio managers' compensation, other accounts managed, and ownership of Fund shares.

Purchasing and Selling Fund Shares

This section tells you how to purchase and sell (sometimes called "redeem") Institutional Class Shares of the Fund.

Institutional Class Shares of the Fund are for individual and institutional investors.

For information regarding the federal income tax consequences of transactions in shares of the Fund, including information about cost basis reporting, see "Taxes."

How to Purchase Fund Shares

To purchase shares directly from the Fund through its transfer agent, complete and send in the application. If you need an application or have questions, please call 1-866-342-7058.

All investments must be made by check, Automated Clearing House ("ACH"), or wire. All checks must be made payable in U.S. dollars and drawn on U.S. financial institutions. The Fund does not accept purchases made by third-party checks, credit cards, credit card checks, cash, traveler's checks, money orders or cashier's checks.

The Fund reserves the right to reject any specific purchase order for any reason. The Fund is not intended for short-term trading by shareholders in response to short-term market fluctuations. For more information about the Fund's policy on short-term trading, see "Excessive Trading Policies and Procedures."

The Fund does not generally accept investments by non-U.S. persons. Non-U.S. persons may be permitted to invest in the Fund subject to the satisfaction of enhanced due diligence. Please contact the Fund for more information.

By Mail

You can open an account with the Fund by sending a check and your account application to the address below. You can add to an existing account by sending the Fund a check and, if possible, the "Invest By Mail" stub that accompanies your confirmation statement. Be sure your check identifies clearly your name, your account

number and the Fund's name and share class. Make your check payable to "Reaves Utilities and Energy Infrastructure Fund."

Regular Mail Address

Reaves Utilities and Energy Infrastructure Fund
P.O. Box 219009
Kansas City, Missouri 64121-9009

Express Mail Address

Reaves Utilities and Energy Infrastructure Fund
c/o DST Systems, Inc.
430 West 7th Street
Kansas City, Missouri 64105

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services of purchase orders does not constitute receipt by the Fund's transfer agent. The share price used to fill the purchase order is the next price calculated by the Fund after the Fund's transfer agent receives the order in proper form at the P.O. Box provided for regular mail delivery or the office address provided for express mail delivery.

By Wire

To open an account by wire, first call 1-866-342-7058 for details. To add to an existing account by wire, wire your money using the wiring instructions set forth below (be sure to include the Fund name, your account number and the share class).

Wiring Instructions

UMB Bank, N.A.
ABA #101000695
Reaves Utilities and Energy Infrastructure Fund
DDA Account #9870523965
Ref: share class/account number/account name

By Automatic Investment Plan (Via ACH)

You may not open an account via ACH. However, once you have established an account, you can set up an automatic investment plan by mailing a completed application to the Fund. These purchases can be made monthly, quarterly, semi-annually or annually in amounts of at least \$25. To cancel or change a plan, write to the Fund at Reaves Utilities and Energy Infrastructure Fund, P.O. Box 219009, Kansas City, Missouri 64121-9009 (Express Mail Address: Reaves Utilities and Energy Infrastructure Fund, c/o DST Systems, Inc., 430 West 7th Street, Kansas City, Missouri 64105). Allow up to 15 days to create the plan and 3 days to cancel or change it.

Minimum Purchases

To purchase Institutional Class Shares of the Fund for the first time, you must invest at least \$1,000. The Fund may accept investments of smaller amounts in its sole discretion. There is no minimum for subsequent investments.

Fund Codes

The Fund's Institutional Class Shares' reference information listed below will be helpful to you when you contact the Fund to purchase shares, check daily NAV or obtain additional information.

Fund Name	Trading Symbol	CUSIP	Fund Code
Reaves Utilities and Energy Infrastructure Fund	RSRFX	00764Q108	1965

Purchases In-Kind

Subject to the approval of the Fund, an investor may purchase shares of the Fund with liquid securities and other assets that are eligible for purchase by the Fund (consistent with the Fund's investment policies and restrictions) and that have a value that is readily ascertainable in accordance with the Fund's valuation policies. These transactions will be effected only if the Adviser deems the security to be an appropriate investment for the Fund. Assets purchased by the Fund in such a transaction will be valued in accordance with procedures adopted by the Fund. The Fund reserves the right to amend or terminate this practice at any time.

General Information

You may purchase shares on any Business Day. Shares cannot be purchased by Federal Reserve wire on days when either the NYSE or the Federal Reserve is closed. The price per share will be the next determined NAV after the Fund or an authorized institution receives your purchase order in proper form. "Proper form" means that the Fund was provided a complete and signed account application, including the investor's social security number or tax identification number, and other identification required by law or regulation, as well as sufficient purchase proceeds.

The Fund calculates its NAV once each Business Day as of the close of normal trading on the NYSE (normally, 4:00 p.m., Eastern Time). To receive the current Business Day's NAV, the Fund or an authorized institution must receive your purchase order in proper form before the close of normal trading on the NYSE. If the NYSE closes early, as in the case of scheduled half-day trading or unscheduled suspensions of trading, the Fund reserves the right to calculate NAV as of the earlier closing time. The Fund will not accept orders that request a particular day or price for the transaction or any other special conditions. Shares will only be priced on Business Days. Since securities that are traded on foreign exchanges may trade on days that are not Business Days, the value of the Fund's assets may change on days when you are unable to purchase or redeem shares.

Buying or Selling Shares through a Financial Intermediary

In addition to being able to buy and sell Fund shares directly from the Fund through its transfer agent, you may also buy or sell shares of the Fund through accounts with financial intermediaries such as brokers and other institutions that are authorized to place trades in Fund shares for their customers. When you purchase or

sell Fund shares through a financial intermediary (rather than directly from the Fund), you may have to transmit your purchase and sale requests to the financial intermediary at an earlier time for your transaction to become effective that day. This allows the financial intermediary time to process your requests and transmit them to the Fund prior to the time the Fund calculates its NAV that day. Your financial intermediary is responsible for transmitting all purchase and redemption requests, investment information, documentation and money to the Fund on time. If your financial intermediary fails to do so, it may be responsible for any resulting fees or losses. Unless your financial intermediary is an authorized institution (defined below), orders transmitted by the financial intermediary and received by the Fund after the time NAV is calculated for a particular day will receive the following day's NAV.

Certain financial intermediaries, including certain broker-dealers and shareholder organizations, are authorized to act as agent on behalf of the Fund with respect to the receipt of purchase and redemption orders for Fund shares ("authorized institutions"). Authorized institutions are also authorized to designate other intermediaries to receive purchase and redemption orders on the Fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized institution or, if applicable, an authorized institution's designee, receives the order. Orders will be priced at the Fund's next computed NAV after they are received by an authorized institution or an authorized institution's designee. To determine whether your financial intermediary is an authorized institution or an authorized institution's designee such that it may act as agent on behalf of the Fund with respect to purchase and redemption orders for Fund shares, you should contact your financial intermediary directly.

If you deal directly with a financial intermediary, you will have to follow its procedures for transacting with the Fund. Your financial intermediary may charge a fee for your purchase and/or redemption transactions. For more information about how to purchase or sell Fund shares through a financial intermediary, you should contact your financial intermediary directly.

How the Fund Calculates Net Asset Value

The NAV of the Fund's shares is determined by dividing the total value of the Fund's portfolio investments and other assets, less any liabilities, by the total number of shares outstanding. In calculating NAV, the Fund generally values its investment portfolio at market price. If market prices are not readily available or the Fund reasonably believes that they are unreliable, such as in the case of a security value that has been materially affected by events occurring after the relevant market closes, the Fund is required to price those securities at fair value as determined in good faith using methods approved by the Board. Pursuant to the policies adopted by, and under the ultimate supervision of, the Board, these methods are implemented through the Trust's Fair Value Pricing Committee, members of which are appointed by the Board. The Fund's determination of a security's fair value price often involves the consideration of a number of subjective factors, and is therefore subject to the unavoidable risk that the value that the Fund assigns to a security may be higher or lower than the security's value would be if a reliable market quotation for the security was readily available.

With respect to non-U.S. securities held by the Fund, the Fund may take factors influencing specific markets or issuers into consideration in determining the fair value of a non-U.S. security. International securities markets may be open on days when the U.S. markets are closed. In such cases, the value of any international securities owned by the Fund may be significantly affected on days when investors cannot buy or sell shares. In addition, due to the difference in times between the close of the international markets and the time the Fund prices its shares, the value the Fund assigns to securities may not be the same as the quoted or published prices of those securities on their primary markets or exchanges. In determining fair value prices, the Fund may consider the performance of securities on their primary exchanges, foreign currency

appreciation/depreciation, securities market movements in the United States, or other relevant information as related to the securities.

There may be limited circumstances in which the Fund would price securities at fair value for stocks of U.S. companies that are traded on U.S. exchanges—for example, if the exchange on which a portfolio security is principally traded closed early or if trading in a particular security was halted during the day and did not resume prior to the time the Fund calculated its NAV.

Other assets for which market quotations are not readily available will be valued at their fair value as determined in good faith by or under the direction of the Board.

How to Sell Your Fund Shares

If you own your shares directly, you may redeem your shares on any Business Day by contacting the Fund's transfer agent directly by mail or telephone.

If you own your shares through an account with a broker or other institution, contact that broker or institution to redeem your shares. Your broker or institution may charge a fee for its services, in addition to the fees charged by the Fund.

By Mail

To redeem shares by mail, please send a letter to the Fund signed by all registered parties on the account specifying:

- The Fund name;
- The share class;
- The account number;
- The dollar amount or number of shares you wish to redeem;
- The account name(s); and
- The address to which redemption (sale) proceeds should be sent.

All registered shareholders must sign the letter in the exact name(s) and must designate any special capacity in which they are registered.

430 West 7th Street
Kansas City, Missouri 64105

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services of sell orders does not constitute receipt by the Fund's transfer agent. The share price used to fill the sell order is the next price calculated by the Fund after the Fund's transfer agent receives the order in proper form at the P.O. Box provided for regular mail delivery or the office address provided for express mail delivery.

Certain redemption requests will require a signature guarantee by an eligible guarantor institution. Eligible guarantors include commercial banks, savings and loans, savings banks, trust companies, credit unions, member firms of a national stock exchange, or any other member or participant of an approved signature guarantor program. For example, signature guarantees may be required if your address of record has changed in the last 30 days, if you want the proceeds sent to a bank other than the bank of record on your account, or if you ask that the proceeds be sent to a different person or address. Please note that a notary public is not an acceptable provider of a signature guarantee and that the Fund must be provided with the original guarantee. Signature guarantees are for the protection of Fund shareholders. Before it grants a redemption request, the Fund may require a shareholder to furnish additional legal documents to ensure proper authorization.

Accounts held by a corporation, trust, fiduciary or partnership, may require additional documentation along with a signature guaranteed letter of instruction. The Fund participates in the Paperless Legal Program (the "Program"), which eliminates the need for accompanying paper documentation on legal securities transfers. Requests received with a Medallion Signature Guarantee will be reviewed for the proper criteria to meet the guidelines of the Program and may not require additional documentation. Please contact Shareholder Services at 1-866-342-7058 for more information.

By Telephone

To redeem your shares by telephone, you must first establish the telephone redemption privilege (and, if desired, the wire or ACH redemption privilege) by completing the appropriate sections of the account application.

Call 1-866-342-7058 to redeem your shares. Based on your instructions, the Fund will mail your proceeds to you or send them to your bank via wire or ACH.

By Systematic Withdrawal Plan (Via ACH)

If your account balance is at least \$10,000, you may transfer as little as \$100 per month from your account to another financial institution through a Systematic Withdrawal Plan (via ACH). To participate in this service, you must complete the appropriate sections of the account application and mail it to the Fund.

Receiving Your Money

Normally, the Fund will send your sale proceeds within two Business Days after it receives your redemption request. The Fund, however, may take up to seven days to pay redemption proceeds. Your proceeds can be wired to your bank account (may be subject to a \$10 fee), sent to you by check or sent via ACH to your bank account if you have established banking instructions with the Fund. **If you are selling shares that were recently purchased by check or through ACH, redemption proceeds may not be available until your check has cleared or the ACH transaction has been completed (which may take up to 15 days from your date of purchase).**

The Fund typically expects to sell portfolio assets and/or hold cash or cash equivalents to meet redemption requests. On a less regular basis, the Fund may also meet redemption requests by using short-term borrowings from its custodian and/or redeeming shares in-kind (as described below). These methods may be used during both normal and stressed market conditions.

Redemptions In Kind

The Fund generally pays sale (redemption) proceeds in cash. However, under unusual conditions that make the payment of cash unwise and for the protection of the Fund's remaining shareholders the Fund might pay all or part of your redemption proceeds in securities with a market value equal to the redemption price (redemption in kind). It is highly unlikely that your shares would ever be redeemed in kind, but if they were you would have to pay transaction costs to sell the securities distributed to you, as well as taxes on any capital gains from the sale as with any redemption. In addition, you would continue to be subject to the risks of any market fluctuation in the value of the securities you receive in kind until they are sold.

Involuntary Redemptions of Your Shares

If your account balance drops below \$500 because of redemptions you may be required to sell your shares. The Fund will provide you at least 30 days' written notice to give you time to add to your account and avoid the involuntary redemption of your shares.

Suspension of Your Right to Sell Your Shares

The Fund may suspend your right to sell your shares or delay payment of redemption proceeds for more than seven days during times when the NYSE is closed, other than during customary weekends or holidays, or as otherwise permitted by the SEC. More information about this is in the SAI.

Telephone Transactions

Purchasing and selling Fund shares over the telephone is extremely convenient, but not without risk. Although the Fund has certain safeguards and procedures to confirm the identity of callers and the authenticity of instructions, the Fund is not responsible for any losses or costs incurred by following telephone instructions it reasonably believes to be genuine. If you or your financial institution transact with the Fund over the telephone, you will generally bear the risk of any loss.

Payments to Financial Intermediaries

From time to time, the Adviser and/or its affiliates, in their discretion, may make payments to certain affiliated or unaffiliated financial intermediaries to compensate them for the costs associated with distribution, marketing, administration and shareholder servicing support for the Fund. These payments are sometimes characterized as "revenue sharing" payments and are made out of the Adviser's and/or its affiliates' own legitimate profits or other resources. Financial intermediaries include affiliated or unaffiliated brokers, dealers, banks (including bank trust departments), trust companies, registered investment advisers, financial planners, retirement plan administrators, insurance companies, and any other institution having a service, administration, or any similar arrangement with the Fund, its service providers or their respective affiliates. A financial intermediary may provide services with respect to Fund shares sold or held through programs such as retirement plans, qualified tuition programs, fund supermarkets, fee-based advisory or wrap fee programs, bank trust programs, and insurance (e.g., individual or group annuity) programs. In addition, financial

intermediaries may receive payments for making shares of the Fund available to their customers or registered representatives, including providing the Fund with “shelf space,” placing it on a preferred or recommended fund list, or promoting the Fund in certain sales programs that are sponsored by financial intermediaries. To the extent permitted by SEC and Financial Industry Regulatory Authority (“FINRA”) rules and other applicable laws and regulations, the Adviser and/or its affiliates may pay or allow other promotional incentives or payments to financial intermediaries. For more information, please see “Payments to Financial Intermediaries” in the SAI.

The level of payments made by the Adviser and/or its affiliates to individual financial intermediaries varies in any given year and may be negotiated on the basis of sales of Fund shares, the amount of Fund assets serviced by the financial intermediary or the quality of the financial intermediary’s relationship with the Adviser and/or its affiliates. These payments may be more or less than the payments received by the financial intermediaries from other mutual funds and may influence a financial intermediary to favor the sales of certain funds or share classes over others. In certain instances, the payments could be significant and may cause a conflict of interest for your financial intermediary. Any such payments will not change the NAV or price of the Fund’s shares. Please contact your financial intermediary for information about any payments it may receive in connection with the sale of Fund shares or the provision of services to Fund shareholders.

In addition to these payments, your financial intermediary may charge you account fees, commissions or transaction fees for buying or redeeming shares of the Fund, or other fees for servicing your account. Your financial intermediary should provide a schedule of its fees and services to you upon request.

Other Policies

Excessive Trading Policies and Procedures

The Fund is intended for long-term investment purposes only and discourages shareholders from engaging in “market timing” or other types of excessive short-term trading. This frequent trading into and out of the Fund may present risks to the Fund’s long-term shareholders, and could adversely affect shareholder returns. The risks posed by frequent trading include interfering with the efficient implementation of the Fund’s investment strategies, triggering the recognition of taxable gains and losses on the sale of Fund investments, requiring the Fund to maintain higher cash balances to meet redemption requests, and experiencing increased transaction costs.

In addition, because the Fund may invest in foreign securities traded primarily on markets that close prior to the time the Fund determines its NAV, the risks posed by frequent trading may have a greater potential to dilute the value of Fund shares held by long-term shareholders than funds investing exclusively in U.S. securities. In instances where a significant event that affects the value of one or more foreign securities held by the Fund takes place after the close of the primary foreign market, but before the time that the Fund determines its NAV, certain investors may seek to take advantage of the fact that there will be a delay in the adjustment of the market price for a security caused by this event until the foreign market reopens (sometimes referred to as “price” or “time zone” arbitrage). Shareholders who attempt this type of arbitrage may dilute the value of the Fund’s shares if the prices of the Fund’s foreign securities do not reflect their fair value. Although, the Fund has procedures designed to determine the fair value of foreign securities for purposes of calculating its NAV when such an event has occurred, fair value pricing, because it involves judgments which are inherently subjective, may not always eliminate the risk of price arbitrage.

In addition, because the Fund invests in small/mid cap securities, which often trade in lower volumes and may be less liquid, the Fund may be more susceptible to the risks posed by frequent trading because frequent transactions in the Fund's shares may have a greater impact on the market prices of these types of securities.

The Fund's service providers will take steps reasonably designed to detect and deter frequent trading by shareholders pursuant to the Fund's policies and procedures described in this Prospectus and approved by the Board. For purposes of applying these policies, the Fund's service providers may consider the trading history of accounts under common ownership or control. The Fund's policies and procedures include the following:

- Shareholders are restricted from making more than 4 "round trips" into or out of the Fund per calendar year. If a shareholder exceeds this amount, the Fund and/or its service providers may, at their discretion, reject any additional purchase orders. The Fund defines a "round trip" as a purchase into the Fund by a shareholder, followed by a subsequent redemption out of the Fund, of an amount the Adviser reasonably believes would be harmful or disruptive to the Fund.
- The Fund reserves the right to reject any purchase request by any investor or group of investors for any reason without prior notice, including, in particular, if the Fund or the Adviser reasonably believes that the trading activity would be harmful or disruptive to the Fund.

The Fund and/or its service providers seek to apply these policies to the best of their abilities uniformly and in a manner they believe is consistent with the interests of the Fund's long-term shareholders. The Fund does not knowingly accommodate frequent purchases and redemptions by Fund shareholders. Although these policies are designed to deter frequent trading, none of these measures alone nor all of them taken together eliminate the possibility that frequent trading in the Fund will occur. Systematic purchases and redemptions are exempt from these policies.

Financial intermediaries (such as investment advisers and broker-dealers) often establish omnibus accounts in the Fund for their customers through which transactions are placed. The Fund has entered into "information sharing agreements" with these financial intermediaries, which permit the Fund to obtain, upon request, information about the trading activity of the intermediary's customers that invest in the Fund. If the Fund or its service providers identify omnibus account level trading patterns that have the potential to be detrimental to the Fund, the Fund or its service providers may, in their sole discretion, request from the financial intermediary information concerning the trading activity of its customers. Based upon a review of that information, if the Fund or its service providers determine that the trading activity of any customer may be detrimental to the Fund, they may, in their sole discretion, request the financial intermediary to restrict or limit further trading in the Fund by that customer. If the Fund is not satisfied that the intermediary has taken appropriate action, the Fund may terminate the intermediary's ability to transact in Fund shares. When information regarding transactions in the Fund's shares is requested by the Fund and such information is in the possession of a person that is itself a financial intermediary to a financial intermediary (an "indirect intermediary"), any financial intermediary with whom the Fund has an information sharing agreement is obligated to obtain transaction information from the indirect intermediary or, if directed by the Fund, to restrict or prohibit the indirect intermediary from purchasing shares of the Fund on behalf of other persons.

The Fund and its service providers will use reasonable efforts to work with financial intermediaries to identify excessive short-term trading in omnibus accounts that may be detrimental to the Fund. However, there can be no assurance that the monitoring of omnibus account level trading will enable the Fund to identify or prevent

all such trading by a financial intermediary's customers. Please contact your financial intermediary for more information.

Customer Identification and Verification

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account.

What this means to you: When you open an account, the Fund will ask your name, address, date of birth, and other information that will allow the Fund to identify you. This information is subject to verification to ensure the identity of all persons opening a mutual fund account.

The Fund is required by law to reject your new account application if the required identifying information is not provided.

In certain instances, the Fund is required to collect documents to fulfill its legal obligation. Documents provided in connection with your application will be used solely to establish and verify your identity.

Attempts to collect the missing information required on the application will be performed by either contacting you or, if applicable, your broker. If this information cannot be obtained within a reasonable timeframe established in the sole discretion of the Fund, your application will be rejected.

Upon receipt of your application in proper form (or upon receipt of all identifying information required on the application), your investment will be accepted and your order will be processed at the next-determined NAV.

The Fund reserves the right to close or liquidate your account at the next determined NAV and remit proceeds to you via check if it is unable to verify your identity. Attempts to verify your identity will be performed within a reasonable timeframe established in the sole discretion of the Fund. Further, the Fund reserves the right to hold your proceeds until your original check clears the bank, which may take up to 15 days from the date of purchase. In such an instance, you may be subject to a gain or loss on Fund shares and will be subject to corresponding tax implications.

Anti-Money Laundering Program

Customer identification and verification is part of the Fund's overall obligation to deter money laundering under federal law. The Fund has adopted an anti-money laundering compliance program designed to prevent the Fund from being used for money laundering or the financing of illegal activities. In this regard, the Fund reserves the right to: (i) refuse, cancel or rescind any purchase order; (ii) freeze any account and/or suspend account services; or (iii) involuntarily close your account in cases of threatening conduct or suspected fraudulent or illegal activity. These actions will be taken when, in the sole discretion of Fund management, they are deemed to be in the best interest of the Fund or in cases when the Fund is requested or compelled to do so by governmental or law enforcement authority. If your account is closed at the request of governmental or law enforcement authority, you may not receive proceeds of the redemption if the Fund is required to withhold such proceeds.

Unclaimed Property

Each state has unclaimed property rules that generally provide for escheatment (or transfer) to the state of unclaimed property under various circumstances. Such circumstances include inactivity (e.g., no owner-initiated contact for a certain period), returned mail (e.g., when mail sent to a shareholder is returned by the post office, or “RPO,” as undeliverable), or a combination of both inactivity and returned mail. Once it flags property as unclaimed, the Fund will attempt to contact the shareholder, but if that attempt is unsuccessful, the account may be considered abandoned and escheated to the state.

Shareholders that reside in the state of Texas may designate a representative to receive escheatment notifications by completing and submitting a designation form that can be found on the website of the Texas Comptroller. While the designated representative does not have any rights to claim or access the shareholder’s account or assets, the escheatment period will cease if the representative communicates knowledge of the shareholder’s location and confirms that the shareholder has not abandoned his or her property. A completed designation form may be mailed to the Fund (if shares are held directly with the Fund) or to the shareholder's financial intermediary (if shares are not held directly with the Fund).

More information on unclaimed property and how to maintain an active account is available through your state or by calling 1-866-342-7058.

Dividends and Distributions

The Fund seeks to declare quarterly dividends at fixed rates approved by the Board. To the extent that the amount of the Fund’s net investment income and short-term capital gains is less than the approved fixed rate, some of its dividends may be paid from net capital gains or as a return of shareholder capital. To the extent the amount of the Fund's net investment income and short-term capital gains exceeds the approved fixed rate, the Fund may pay additional dividends. An additional distribution of net capital gains realized by the Fund, if any, may be made annually; provided, however, that no more than one distribution of net capital gains shall be made with respect to any one taxable year of the Fund (other than a permitted, supplemental distribution which does not exceed 10% of the aggregate amount distributed for such taxable year). If you own Fund shares on the Fund’s record date, you will be entitled to receive the distribution. The Board will periodically revisit this dividend policy and will make changes if necessary in accordance with the shareholder’s best interests.

You will receive dividends and distributions in the form of additional Fund shares unless you elect to receive payment in cash. To elect cash payment, you must notify the Fund in writing prior to the date of the distribution. Your election will be effective for dividends and distributions paid after the Fund receives your written notice. To cancel your election, simply send the Fund written notice.

Taxes

Please consult your tax advisor regarding your specific questions about federal, state and local income taxes. Below is a summary of some important U.S. federal income tax issues that affect the Fund and its shareholders. This summary is based on current tax laws, which may change. This summary does not apply to shares held in an IRA or other tax-qualified plans, which are not subject to current tax. Transactions relating to shares held in such accounts may, however, be taxable at some time in the future.

The tax legislation commonly referred to as the Tax Cuts and Jobs Act (the “Tax Act”) makes significant changes to the U.S. federal income tax rules for taxation of individuals and corporations, generally effective for taxable years beginning after December 31, 2017. Many of the changes applicable to individuals are temporary and would apply only to taxable years beginning after December 31, 2017 and before January 1, 2026. There are only minor changes with respect to the specific rules only applicable to a regulated investment company (“RIC”), such as the Fund. The Tax Act, however, makes numerous other changes to the tax rules that may affect shareholders and the Fund. You are urged to consult with your own tax advisor regarding how the Tax Act affects your investment in the Fund.

The Fund intends to invest in certain MLPs and other entities which may be treated as qualified publicly traded partnerships (“QPTP”), as defined under the Internal Revenue Code of 1986, as amended (the “Code”). The net income from QPTPs is qualifying income for purposes of the Fund’s qualification as a RIC under the Code. The Fund’s investment in one or more of such QPTPs, however, is limited under the Code to no more than 25% of the value of the Fund’s assets. The Fund will monitor its investment in such QPTPs in order to ensure it qualifies as a RIC. Please see the discussion in the SAI regarding the consequences if the Fund fails to qualify as a RIC under the Code. MLPs and other partnerships that the Fund may invest in will deliver Form K-1s to the Fund to report its share of income, gains, losses, deductions and credits of the MLP or other partnership. These Form K-1s may be delayed and may not be received until after the time that the Fund issues its tax reporting statements. As a result, the Fund may at times find it necessary to reclassify the amount and character of its distributions to you after it issues you your tax reporting statement.

The Tax Act treats “qualified publicly traded partnership income” within the meaning of Section 199A(e)(5) of the Code as eligible for a 20% deduction by non-corporate taxpayers. Qualified publicly traded partnership income is generally income of a “publicly traded partnership” that is not treated as a corporation for U.S. federal income tax purposes that is effectively connected with such entity’s trade or business, but does not include certain investment income. A “publicly traded partnership” for purposes of this deduction is not necessarily the same as a “qualified publicly traded partnership,” as defined above. This deduction, if allowed in full, equates to a maximum effective tax rate of 29.6% (37% top rate applied to income after 20% deduction). The Tax Act does not contain a provision permitting a RIC, such as the Fund, to pass the special character of this income through to its shareholders. Currently, direct investors in entities that generate “qualified publicly traded partnership income” will enjoy the lower rate, but investors in RICs that invest in such entities will not. It is uncertain whether future technical corrections or administrative guidance will address this issue to enable the Fund to pass through the special character of “qualified publicly traded partnership income” to shareholders.

The Fund intends to distribute substantially all of its net investment income and net realized capital gains, if any. The dividends and distributions you receive may be subject to federal, state and local taxation, depending upon your tax situation. Distributions you receive from the Fund may be taxable whether or not you reinvest them. Income distributions, including distributions of net short-term capital gains, other than distributions of qualified dividend income are generally taxable at ordinary income tax rates. Long-term capital gains distributions and distributions that are reported by the Fund as qualified dividend income are generally taxable at the rates applicable to long-term capital gains and currently set at a maximum tax rate for individuals at 20% (lower rates apply to individuals in lower tax brackets). Once a year the Fund (or its administrative agent) will send you a statement showing the types and total amount of distributions you received during the previous year.

If the Fund distributes more than its net investment income and net capital gains, the excess generally would be treated as a nontaxable return of capital that would reduce your cost basis in your Fund shares and would increase your capital gain or decrease your capital loss when you sell your shares.

You should note that if you purchase shares just before a distribution, the purchase price would reflect the amount of the upcoming distribution. In this case, you would be taxed on the entire amount of the distribution received, even though, as an economic matter, the distribution simply constitutes a return of your investment. This is known as “buying a dividend” and should be avoided by taxable investors.

Each sale of Fund shares may be a taxable event. The gain or loss on the sale of Fund shares generally will be treated as a short term capital gain or loss if you held the shares for 12 months or less or a long term capital gain or loss if you held the shares for longer.

U.S. individuals with income exceeding \$200,000 (\$250,000 if married and filing jointly) are subject to a 3.8% Medicare contribution tax on their “net investment income,” including interest, dividends, and capital gains (including capital gains realized on the sale of shares of the Fund).

The Fund (or its administrative agent) must report to the Internal Revenue Service (“IRS”) and furnish to Fund shareholders cost basis information for Fund shares purchased on or after January 1, 2012, and sold on or after that date. In addition to reporting the gross proceeds from the sale of Fund shares, the Fund (or its administrative agent) is also required to report the cost basis information for such shares and indicate whether these shares had a short-term or long-term holding period. For each sale of Fund shares, the Fund will permit shareholders to elect from among several IRS-accepted cost basis methods, including the average basis method. In the absence of an election, the Fund will use the average basis method as the default cost basis method. The cost basis method elected by the Fund shareholder (or the cost basis method applied by default) for each sale of Fund shares may not be changed after the settlement date of each such sale of Fund shares. Fund shareholders should consult their tax advisors to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about cost basis reporting. Shareholders also should carefully review the cost basis information provided to them by the Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their federal income tax returns.

To the extent that the Fund invests in foreign securities, it may be subject to foreign withholding taxes with respect to dividends or interest the Fund received from sources in foreign countries. If more than 50% of the total assets of the Fund consist of foreign securities, the Fund will be eligible to elect to treat some of those taxes as a distribution to shareholders, which would allow shareholders to offset some of their U.S. federal income tax. The Fund (or its administrative agent) will notify you if it makes such an election and provide you with the information necessary to reflect foreign taxes paid on your income tax return.

More information about taxes is in the SAI.

Additional Information

The Trust enters into contractual arrangements with various parties, including, among others, the Fund’s investment adviser, custodian, transfer agent, accountants, administrator and distributor, who provide services to the Fund. Shareholders are not parties to, or intended (or “third-party”) beneficiaries of, any of those contractual arrangements, and those contractual arrangements are not intended to create in any individual shareholder or group of shareholders any right to enforce the terms of the contractual arrangements against the service providers or to seek any remedy under the contractual arrangements against the service providers, either directly or on behalf of the Trust.

This Prospectus and the SAI provide information concerning the Trust and the Fund that you should consider in determining whether to purchase shares of the Fund. The Fund may make changes to this information from time to time. Neither this Prospectus, the SAI or any document filed as an exhibit to the Trust's registration statement, is intended to, nor does it, give rise to an agreement or contract between the Trust or the Fund and any shareholder, or give rise to any contract or other rights in any individual shareholder, group of shareholders or other person other than any rights conferred explicitly by federal or state securities laws that may not be waived.

Financial Highlights

The table that follows presents performance information about Institutional Class Shares of the Fund. The financial highlights table is intended to help you understand the Fund's financial performance for the past five fiscal years. Certain information reflects financial results for a single Institutional Class Fund Share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been audited by Ernst & Young LLP, independent registered public accounting firm for the Fund. The financial statements and the unqualified opinion of Ernst & Young LLP are included in the 2018 Annual Report of the Fund, which is available upon request by calling 1-866-342-7058.
